

PEUGEOT PROFESSIONAL PARTNER RANGE

FOR THE DAY AHEAD

*Overseas model shown

A VAN FOR TODAY AND TOMORROW

With 20 years of commercial van experience, the latest PEUGEOT partner range is available in a variety of configurations to meet and adapt to the needs of every business. Always looking to the future, Partner is now available with a choice of robust and agile powertrains – with a PureTech petrol engine or the All-New e-Partner with 100% electric motor.

Built on PEUGEOT's EMP-2 modular multi-energy platform, Partner works like a van but drives with all the smoothness and comfort of a premium SUV. It boasts PEUGEOT's signature i-Cockpit™ with Bluetooth® connectivity¹, Apple CarPlay® and Android Auto™, plus a host driver assist safety functions.

The PEUGEOT Partner range comes in City, Pro and Premium specification levels with a variety of long and short body models.

1. Compatible Apple® or Android™ device required.

*Overseas model shown

DESIGN & TECHNOLOGY

PEUGEOT i-Cockpit™

The intuitive PEUGEOT i-Cockpit™ has been designed from the driver's point of view and features a compact integrated control steering wheel, for a more relaxed arm position and a digital instrument panel.

CONNECTIVITY

Connect seamlessly while you're on the go from the cabin of Partner with Bluetooth® phone connectivity. Pro and Premium Partner variants allow you to effortlessly enjoy Apple CarPlay® and Android Auto™¹, plus voice recognition functions. Stay charged with the handy USB socket and tune in to the four speaker sound system (2 woofer door speakers, 2 tweeter door pillar speakers).

HD TOUCHSCREENS

Easily access key features on the 8" capacitive central touchscreen on the Pro & Premium models, with 3D Satellite Navigation to help get you where you need to be. With a 5" monochrome central screen on City, all variants can benefit from the wide-view rear camera for easy parking, while the myPeugeot App (downloadable from App store) delivers a range of useful journey and vehicle information.

¹. Compatible Apple® or Android™ device required.

CHOOSE PETROL ENGINE OR 100% ELECTRIC MOTOR

EFFICIENT TRANSMISSIONS

The Pro and Premium variants boast the robust performance of the PureTech petrol engine with 8-speed Efficient Automatic Transmission (EAT) while the City model features 6-speed Manual Transmission.

Also in the range is PEUGEOT Australia's first 100% electric Van, the ground-breaking PEUGEOT e-Partner which harnesses next generation electric technology.

100% ELECTRIC VARIANT

The efficient PEUGEOT e-Partner is powered by a rapid charger compatible 50kWh battery, delivering 100kW of power and 260Nm of torque.

Enjoy the smooth and quiet performance, with up to 750kg payload capability.

LITHIUM-ION BATTERY

The 400V high-voltage battery is the Lithium-ion type and is conveniently located under the front seats to preserve cabin and cargo space.

The battery comes with an 8-year or 160,000 km warranty¹.

1. Whichever occurs sooner, from vehicle's warranty start date.

CHARGING YOUR PEUGEOT ELECTRIC VEHICLE

Whether home charging or public charging, your PEUGEOT electric vehicle is designed to make life easy and to keep you mobile wherever you are.

PRIVATE CHARGING

A Wallbox is PEUGEOT'S recommendation for optimum charging at home.

This method will efficiently charge your vehicle using the cable which comes with your vehicle.

PUBLIC CHARGING

Utilising the expanding network of public infrastructure is an easy way to top-up range on the go, with many easy to use apps available for you on your smart phone.

MYPEUGEOT APP

Use the MyPeugeot app to access your owner's handbook online, check servicing & maintenance schedules, as well as fuel tank levels and odometer readings.

It's also perfect for trip planning - sending that information to your car's built-in navigation - or checking where you parked.

DRIVING RANGE

Enjoy travelling both short and long distances in the 100% electric PEUGEOT e-Partner Van with a WLTP test range of 258km¹.

Tips to help optimise the driving range of your PEUGEOT:

THE POWER INDICATOR

Monitor energy consumption in real time, using the indicator on your dashboard, for efficient management of your vehicle's driving range.

REGENERATIVE BRAKING

When you release the accelerator the electric motor acts as a generator, slowing the vehicle and recharging the battery. PEUGEOT e-Partner offers the benefit of regenerative braking in two modes, Standard and B or 'Brake' mode which offers extra regenerative braking to maximise battery charging when you take your foot off the accelerator.

1. Figure based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, figures stated for the purposes of comparison amongst vehicles tested to the same technical procedures only. Actual real world range results will vary depending on a combination of factors including but not limited to load, driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions.

*Overseas model shown

ROOM FOR YOU & YOUR LOAD

With its optimised architecture and multiflex bench seat¹, PEUGEOT Partner Pro & Premium variants offer unique modularity and comfort. You can carry up to three people in the front, or foldaway the passenger seats for more space and flexibility.

Also featuring a Glazed Bulkhead with Load-through Flap¹, the Long Wheel Base PEUGEOT Partner boasts a maximum load length of up to 3440mm with the bulkhead flap open to accommodate extra long items.

The compact, nimble PEUGEOT Partner is lauded for its carrying capacity, with a load volume of 3.3m² for short body variants and 3.9m² for long body models including e-Partner². While the Load-through Flap adds up to an extra 0.5m³ of handy storage space. Plus with up to 10 cargo bay tie-down rings¹, you can keep your load safe and secure.

*Overseas model shown

*Overseas model shown

1. Feature on all models except City and e-Partner. 2. Cargo bay dimensions quoted at maximum length, and are provided for guidance only. The cargo bay is an asymmetric shape and dimensions are therefore variable. Customers must check critical dimension requirements by measuring vehicle.

*Overseas model shown

FEATURED PACKED

MULTIFLEX BENCH SEAT

Apart from accommodating three people upfront, Partner's Multiflex Mobile Office¹ adapts the cabin for all your business needs on the go.

This set up includes an adjustable & rotating, flip-down work table, plus ample underseat storage.

CABIN COMFORTS

Inside PEUGEOT Partner's cabin, every thoughtful feature has been expertly positioned to support the driver and to make the most of the interior space.

From the overhead storage shelf to the two cup holders, plus multiple other clever storage solutions.

A PLACE FOR EVERYTHING

Designed to maximise on-road productivity and storage, the cabin features a handy upper dashboard tray to ensure your mobile phone is always easy to find.

While the handy USB socket and 12 volt outlet mean that you are always fully charged.

¹. Feature on all models except City and e-Partner.
